

## Fox Hunt July 28<sup>th</sup>, 2020

It was found in an hour after the Fox started his barking and screeching. Congratulations to Team Ohlrich! Jim, K8MVT and XYL Sue were the first to locate the rather baffling hiding place of the Fox. Art, K8GDW, was the other successful hunter. He located the Fox's hiding place just before quitting time.

The Fox was pursued by:

- W8LI and granddaughter,
- W8KQ
- K8GDW,
- WB8ZIR,
- K8QBZ,
- KJ4LFK,
- N8YKG and N8TZM,
- and of course K8MVT and his XYL

We met in the TSC's parking lot at 6:00 PM and W1UP gave the following directions and then he went home to drink coffee and wait,

*"The fox is in the city limits. It probably can be seen from the road that the Fox is near. The Fox will be talking in tones and CW on 146.550 MHz. When you locate it, fill in your call and time in the appropriate spot on the top of the Fox. You will be able to see if anyone else has found it. Please leave the pencil for others to use. If you want you can come to my house, 1405 S First and I'll have coffee ready on the deck in the back. I'll be monitoring 146.520 MHz if you have any questions."*

It was a great time and we will do this a gain soon! Hope you can make the next "Fox Hunt"

Dick, W1UP

TBARC Secretary

PS -Where was the Fox located? He was where Alpena Hams probably were on Saturday, June 22, 2019.
