
FIELD DAY

HAM RADIO OPEN HOUSE

June 26 through June 27 | Alpena County Fairgrounds

Who are we?

We are the **Thunder Bay Amateur Radio Club**. We are a group of people from all walks of life and ages who come together to enjoy sharing their passion for the art of amateur radio.

Our Purpose:

To promote understanding of the amateur radio communications.

To build and train members to help maintain communications during emergencies as a public service.

To promote interest and advance proficiency within the amateur radio community, improving operating & technical skills.

To practice activities that promote general interest for present and future amateur radio operators.

And to have LOTS of fun communicating with other Ham radio operators from all over the globe!

What is the purpose of “Field Day?”

Field Day is an open house event, a picnic, a campout, practice for emergencies, an informal contest, but most of all, it's about having fun where ham operators set up public transmitting stations, exhibiting the science, skill and service behind amateur radio operating. Public service, emergency preparedness, community outreach, and technical skills are but a few of the many talents that our operators will demonstrate for the public during Field Day.

If you have any questions, we invite you to contact us at w1up@thunderbayarc.org. The Thunder Bay Amateur Radio Club is devoted to advancing the art of amateur radio for hobbyist and public servants alike. So, please join us for Field Day at the Alpena County Fairgrounds from Saturday June 26th through Sunday, June 27th.
