

Thunder Bay Amateur Radio Club
Meeting Minutes
May 23, 2023

We met at the Field Day site at 6:30 PM to start to plan the lay-out of operations.

There were 5 members (with President and Vice- President) and one guest present. Having a quorum, there was one piece of business brought up.

A club member wants to trade a new Yeasu 800 series rotor with cable and control for the club's CDE rotor.

After a discussion this was unanimously approved.

The meeting was adjourned at 7:30 PM

Dick Wiitala
TBARC President/ note taker
