

# Fox Hunt September 10<sup>th</sup>, 2024

Hi TBARC members and Friends,

We have a Fox scheduled for September 10th. We will **start at 5:30 PM** because it will get dark early. We will meet as a group to get started in the **Tractor Supply parking lot** on Ripley near the end **by the old Western Auto**. You can work by yourself or with others. You also can communicate the others on the repeater to compare direction headings, but do not transmit on the Fox's frequency (146.550 MHz). If you made a "tape measure beam" that will be a help for you as well as "paper clip" antenna. A map of the local area will be a help too. It might be a good scheme if we could divide into 3 groups and get a heading from each location that could be reported back to a net control. This may locating the fox easier and faster.

The Fox will start transmitting a few minutes past 5:30 PM and stop transmitting at 7:30 PM.

Hope to see all of the Fox Hunters on Tuesday, September 10th!

This information will also be posted on <https://thunderbayarc.org/>

Dick, w1up

TBARC Treasurer

PS: the link below gives directions to build a tape measure beam that should aid you in finding the "Fox"
